Non-GMO statement Concentrated Algae Oil

The Concentrated Algae Oil products do not contain any genetically modified ingredients.

The mixed natural tocopherol added as antioxidant is derived from non-GMO soybean (identity-preserved quality IP).

Depending on specification, some Algae Oil products could be mixed with sunflower oil. This sunflower oil do not contain, are not produced and are not derived from Genetically Modified Organisms (GMO).

The Algae Oil products are as such not considered to be subject to labelling with reference to EC regulation 1829/2003, EU Regulation 1830/2003 with amendments.

Kind regards
